

Installation

To install the Varco Reports download the ZIP file, open the ZIP file, and extract the folder shown:

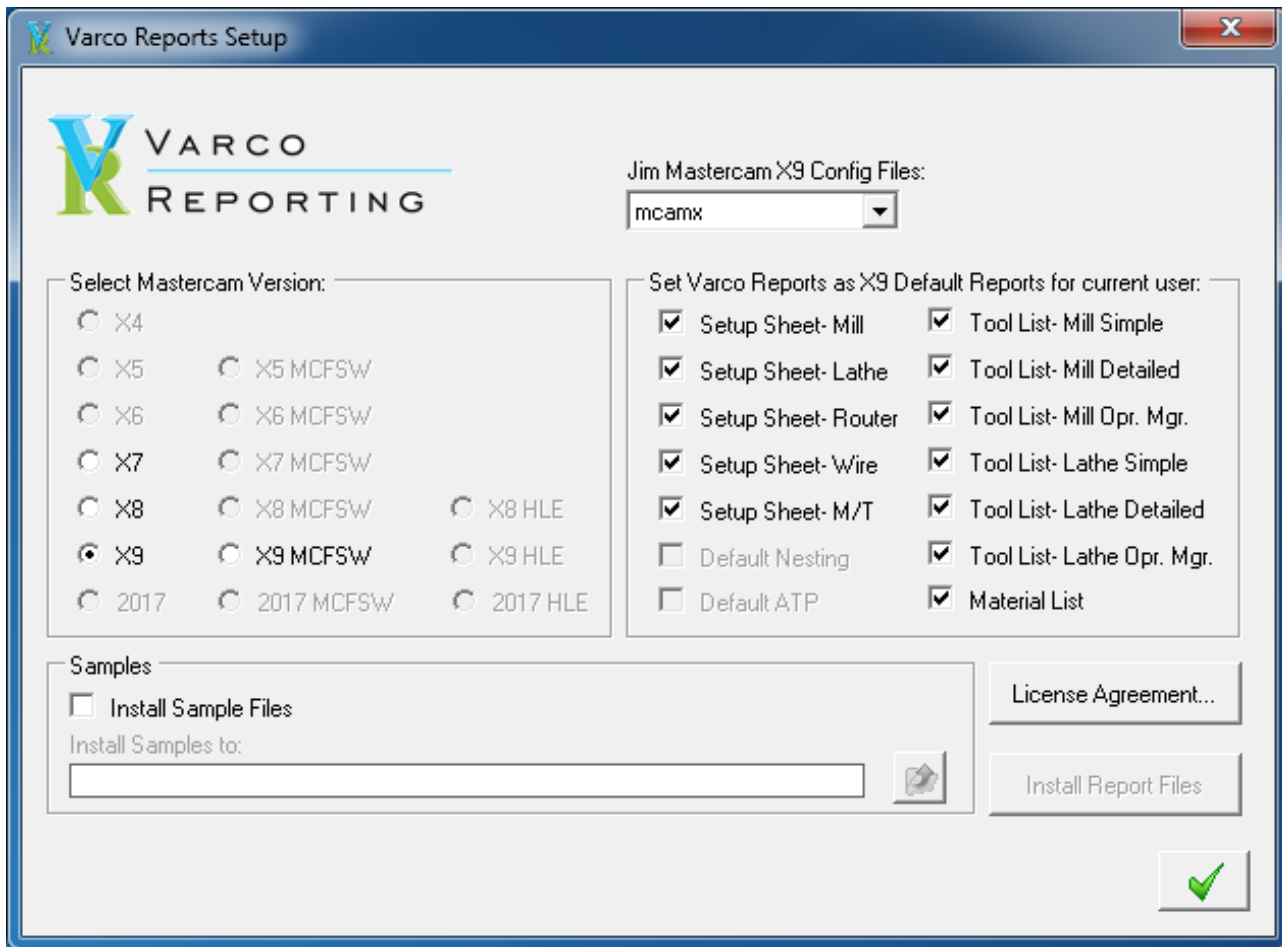

From the extracted folder, run the Setup program:

The Setup program provides options to:

- Select the version of Mastercam to install the reports for.
- Update the current users configuration to use the Varco Reports by default.
- Save the sample files to a location of your choice.
- View the Software License Agreement.
- Install the report files.

Repeat as needed executing the Setup program for different versions.

The reports are now installed and can be accessed from Mastercam the same way the original reports are.
